SAFE**

STAY FARM SAFE

**KEEP FARM EQUIPMENT
IN GOOD CONDITION
SAFETY FOR FARMERS**

Equipment Safety

Remember...

- Keep all guards, especially PTO guards, in place on your tractors and equipment
- Make sure you have good all-round visibility on tractors and telehandlers
- Only repair machinery if you have the correct tools and equipment
- Stop all equipment before trying to clear blockages
- Tractors must have enclosed safety cabs or be fitted with roll bars
- Take care when getting in and out of tractors or telehandlers
- Always start your tractor from the driver's seat
- Make sure that your tractor's starter system works properly - never run a tractor down a slope to start it
